Description

Compact superautomatic espresso and cappuccino machine.

Equipped with the patented Smart Boiler technology, which significantly boosts steam and hot water capacity (approx. +30%).

Cappuccino System for one-step cappuccino and latté, equipped with the exclusive Milk Precision System (MilkPS), thanks to which you can: obtain a consistent in-the cup milk dose; customize milk temperature for each selection (patent pending); prepare stratified beverages; place the fridge under the counter.

1 steam wand.

1 hot water wand (dosed delivery). Microfilter.
